The Vietnamese Trouble

Editor, Enterprise:

I am writing this letter not as a Democrat or Republican but as a fellow American.

I have carefully studied the war in Viet Nam for years and have been amazed at the bungling of our State Department and White House. President Diem was winning the war but was deposed and killed and the finger of guilt points to our CIA and White House.

The ultra liberal press members stationed there fed the dean of the ADA and king of the ultra left, Walter Lippmann, by the New York Times, the lies and lies (such as the burning of the Buddhist priests, etc.) which were all Communist inspired.

'Inflamed'

Lippmann and the Huntley and Brinkleys and the Cronkites inflamed the lies and then concentrated on Madame Nhu, picturing her as a sister dragon lady. We have seen fit to deny her a visa again to come to this country. What Madame Nhu told us then was the truth and it is so obvious that the State Department doesn't want us Americans to hear.

During the heat of the campaign our President told us the Soviets must pay the \$52 million they owe or lose their vote in the U. N.. The day following the meeting of Dean Rusk and the President at the ranch, Adlai Stevenson announced to us that we would accept any settlement with the Soviets. We did not want to aggravate the Soviets.

'Losing the War'

No wonder we are losing the cold war on every front and our American boys continue to lose their lives in vain. History continues to prove that appeasement, backing down every time, indecision, and bungling continue to lead our great country to disaster.

Another Anniversary

Mission Hill, S. D.

In this week of remembrance, let it not be forgotten that only a year ago, another brave young Catholic President, Diem of Viet Nam, was brutally assassinated.

That assassination could not have been committed without complicity of the Central Intelligence Agency and the American Ambassador.

The CIA and Lodge never could have connived in the overthrow of President Diem without the consent, implicit or explicit, of President John Fitzgerald Kennedy.

To quote Shakespeare, "The evil that men do lives after them; the good is oft interred with their bones."

Truly, we are reaping the fruit of our folly in Viet Nam.

Joseph Keeley.
